Introduction

The Corporate Competence Center EDI of the Huf group provides many EDI services, e.g. the EDI Onboarding of business partners of the Huf group. This document is supposed to document the EDI Onboarding and Message Validation portal of the Huf Group.

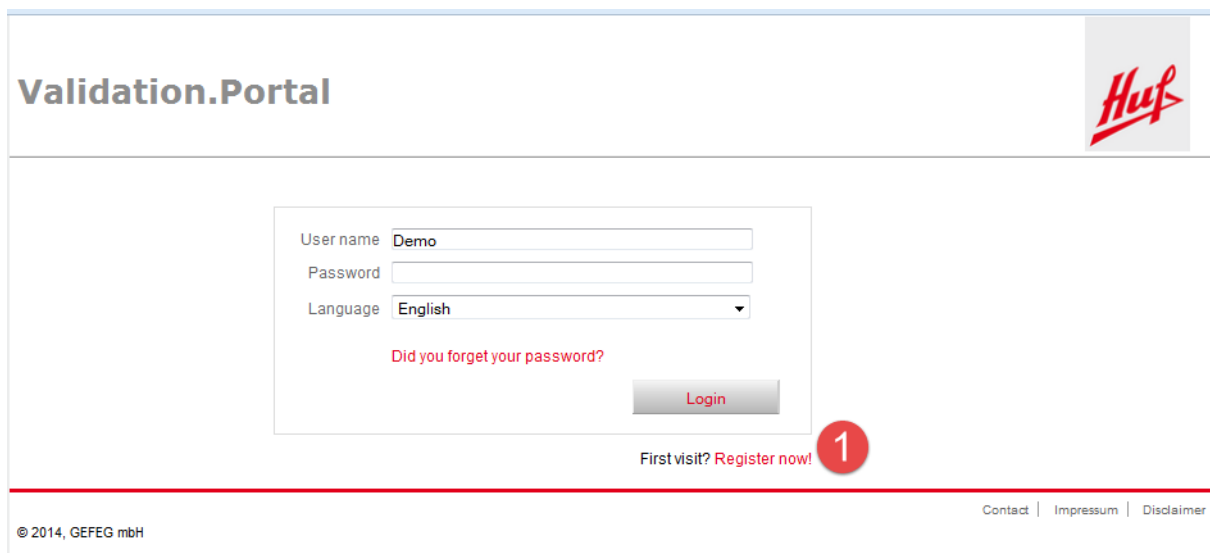

This portal provides Huf suppliers all information in order to implement EDI with the Huf group.

The Validation.Portal - Registration

Please access Huf’s Validation.Portal via webbrowser :

<https://edi.huf-group.com>

1. Please first register

2. Fill out the registration form. Please make sure to type in the Captcha shown below.

The Validation.Portal - EDI Onboarding

EDI Onboarding - Overview

A screenshot of the Validation.Portal website. At the top, there are links for "Update registration data" and "Log off". Below these is a navigation menu with tabs for "Onboarding", "News", "Spezifikationen", "Issues", "Download area", and "Validation". The "Onboarding" tab is selected. The main content area is titled "Onboarding" and contains the following text: "EDI Onboarding for suppliers of the Huf Group", "Welcome to Huf Group!", "This portal is supposed to help you implementing EDI with Huf Group.", "All necessary steps are described as the 'EDI Onboarding' process. Your contact partner regarding EDI C", "1. Setting up the EDI connection", "Huf Group supports EDI connections to its suppliers via OFTP-ISDN or OFTP-TCP/IP.", "Please download our EDI Data Sheet and out the application form. Afterwards please send us the applica", "edi-support@huf-group.com", "2. Huf EDI guidelines", "In the Download area you can download our EDI documentation (Guidelines etc.).", "3. Validate EDI messages", "Validate your EDI messages against Huf Standards (VDA4913/DESADV)."

1. EDI Onboarding. Please follow the instructions and make sure to set up a working EDI connection between Huf Group and your company.
2. Download and study our guidelines carefully. Implement your EDI messages, e.g. VDA4913.
3. Once you have implemented the Advance Shipping Notice (ASN) you can use the Validation area to check your files.

The Validation.Portal - EDI Message Validation

1. Select the file that you would like to check (e.g. txt file).
2. Load the file.
